TOTAL SALES OF STOCKS SATURDAY LESS THAN 50,000 SHARES.

Over Half the Business on 'Change in Sugar Trust - At Indianapolis Wheat and Oats Lose a Cent.

At New York, Saturday, money on call was easy at 1 per cent.

Prime mercantile paper, 3@5 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.88\\@4.88\4 for demand, and \$4.87% 04.87% for sixty days; posted rates, \$4.88@4.89; commercial bills, \$4.861/4.

Silver certificates, 64@65c. Bar silver closed at 62%c per ounce; at London, 28%d. The New York weekly bank statement shows the following changes: Reserve, increase......\$172,225

The banks now hold \$74,113,600 in excess

Imports of specie at New York last week were \$24,760, of which \$21,065 was gold, against a total of \$120,460 last week. The banks gained by the movement \$1,485,000 in gold and legal tenders and lost by subtreasury operations and gold exports

\$700,000, making a net gain of \$785,000.

of the requirements of the 25 per cent.

Total sale of stocks amounted to only 45,604 shares, including 24,100 of American Sugar and 12,300 of Distilling. With more than half of the day's business in American Sugar Refining Company, there was very little of interest in the speculation on the Stock Exchange Saturday. So narrow a market has not been experienced in many years, even on a Saturday. Scarcely anything was done during the first quarter of an hour, except in Sugar. Not until 10:45 o'clock was there a sale of Chicago Gas, General Electric or Louisville. The first transaction in Burlington & Quincy took place at 11:15 o'clock, Rock Island at 11:40, and St. Paul at 11:15. Sugar was in good request in the early dealings and advanced 1% per cent., reacting 1 and recovering % per cent. making a gain of 1% from Friday's closing price. Distilling rose 14 in the opening trading, but was at once raided and sold off 11/2 per cent. In the final dealings the covering of short contracts resulted in a rally of % per cent. The dealings in the rest of the list were so small and the fluctuations so narrow as not to call for any special mention, the market closing steady to firm, with prices about evenly divided between the declines and advances, compared with the final males of Friday, but in no case was the change above a fraction, except Pullman, which was I per cent. higher. The result of the week's trading has been, in the main, a depreciation in values, the principal declines being: Atchison, 1%; General Electric, 11/5; St. Paul preferred, 15/8; Evansville & Terre Haute and Chicago Gas, : Distilling and Wisconsin Central, 6% Minneapolis & St. Louis preferred, 4%, and Brooklyn Elevated, 6 per cent. Advances were established of 2 per cent. in Tobacco preferred and Des Moines & Fort Dodge preferred, 21/2 in United States Leather preferred, 2% in Louisville & New Albany pre-ferred, Hocking Valley preferred and Laclede Gas preferred; 2% in Baltimore &

Ohio and 31/4 in Sugar. The railway and miscellaneous bond market was fairly active, but was weak in tone, and declines were made of 2 per. cent. in Chicago & Western Indiana general sixes, 11/2 in Atchison fours, 11/8 in Atchison seconds, Class A; 14 in St. Louis & San Francisco general fives, 11/8 in Erie second consols trust receipts, and 1 per cent. in Northern Pacific seconds and Northern Pacific and Montana firsts. Erie new sevens advanced ¼ and Rock Island extended fives registered and Fort Worth & Denver City sixes, 1 per cent. The principal changes on the week are as follows: Advances—Cedar Falls & Minnesota firsts, 6%; Scioto Valley & New England fours, 5: Equitable Gas of New York fives and Union Pacific sinking fund eights, 4; Union Pacific gold sixes collateral trust notes, 3; Northern Pacific thirds, 3%, United States Cordage firsts, 3%; Richmond & Danville stamped fives, 31/2, and Union Pacific, Denver & Gulf firsts, 31/8. Declines -Toledo, Peoria & Western firsts, 12; Missouri Pacific collateral trust fives, 7; Wabash debentures, Series B, 5; Detroit Gas fives, 4; Atchison seconds, 3%; Atchison fours, 278; Burlington & Quincy debenture rives, 314, and Northern Pacific terminal firsts, 3

Government bonds were strong. State bonds were inactive. The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations: Open- High- Low- Clos-

WEEKLY REVIEW. Henry Clews, of New York, in his review of financial operations in Wall street last week, says:

"During the past week inactivity in Wall street affairs has been the rule and not the exception. The amount of transactions in stocks has been very limited; the pro-fessional operators think a dull market a good occasion for summer recreation and have availed of the opportunity. There can be no question that the preponderant feeling in the stock market is decidedly bullish. This tendency is not a mere transient whim. It is the result of fixed conviction that at present prices and under existing conditions the leading stocks are a cheap investment. This feeling has Been steadily gaining ground for some time past, and hence the difficulty the bears have found in making any impression on prices. No systematic effort has been made to turn this feeling to account, first, because certain uncertainties have stood In the way, and next because it has seemed likely that when those obstacles were removed prices would rise almost without any effort on the part of holders. The larger holders of stocks are therefore willing to rest on their holdings, waiting until the summer absentees return from the country, with the prospect that in the meantime conditions will continue to improve, and that September may find the market ready for a brisk upward movement. It must be conceded that some very material improvements in the general condition of affairs have lately occurred. We are close on the termination of the twelve months of suspense connected with tariff legislation. Whether the present crisis in that question ends in the enactment of the bill or in its defeat, matters little to the immediate weifare of business. If the bill becomes law preparations have already been made in our industries for giving effect to the lower duties with the minimum of disturbance to manufacturers. If it is defeated both sides will concede that at least no present injury but rather an immediate stimulus must result to domestic interests at large. From this point of view Wall street takes comparatively little interest in the failure or the soint committee of the two houses aca an agreement on this measure.

"The end of the Debs strike has con-

tributed to a great strengthening of con-

fidence in the future of the transportation interests. The constant attitude of threat held by some of the unions and the increasing violence of their strikes has been a steadily growing element of distrust in this class of investments, not only at home but also in the foreign markets for our securities. These unions have now put forth all the force they could summon in order to measure their strength with that of the railroads. They declared in advance that failure would mean not only present defeat but also the final overthrow of at least the strike as a method of warfare. They are defeated most utterly, and that in a way which makes it certain that the unions can never dominate the railroads except through the overthrow of the armed power not only of the cities and the States but also of the United States. This settlement is of immeasurable value not only to the railroads but also to the entire vast interests dependent upon the railroads for the safe and regular transportation of products which have so repeatedly suffered from the growing vio-lences of employes led by injudicious leaders. It is thus felt that July has brought a great amelioration of the workng conditions of our 175,000 miles of rail-

"The gold export bugbear has vanished. Legitimate shipments to Europe have virtually ceased and the rates for sterling exchange have begun to show a downward tendency. Money has become such a complete "drug" at the European centers that the banks there want no more gold and prefer that their American balances should remain here when New York will pay a triffe more interest than can be earned at home. From London advices report a marked increase of interest in American securities, arising from their low prices as compared with other invest-ments and also from the failure of the labor power as against the railroads, and also from the near settlement of the tariff egislation, which naturally is there con-

strued as pregnant with a great future ex-pansion of our commerce and a conse-quent benefit to our railroads. "The forthcoming reports of the railroads show a material falling off in gross earnings, which is no more than might be expected from the strike stoppage of traffic. Allowing for this special loss and for the interruptions to traffic for now some weeks connected with the coal strikes, the gross earnings for the expired portion of this year must be regarded as better than could have been expected under the existing depression and warrant the contention held by many that the state of business at the interior has not been so un-satisfactory as it has been found at the

LOCAL GRAIN AND PRODUCE.

Eusiness of the Past Week Fairly Satisfactory in All Lines of Trade.

Though there has not been a large amount of business done in the week closing Saturday, it cannot be said there was any disappointment, for not much was expected. In fact, the volume of trade was rather above than below expectations. In dry goods there was less done than in other lines. Prices, however, are holding steady. Grocers say they have nothing to complain of. Changes have been very few in quotations. Coffees and sugars are higher by a fraction than a week ago, but in other staples no change is noted. The drug trade is quiet, but no complaint of duliness is made. Leather dealers report the business of moderate proportions, with the bulk of the trade in belting. On Commission row there has been a good business done throughout the week; receipts of all kinds of vegetables and fruits liberal, with a demand fully equal to the supply. In the main quotations have ruled very steady. Apples are coming in more freely, but prices have not yet fallen. Potatoes are still rather scarce. There has been no change during the week in the poultry, butter and egg market, and business in that line has been rather quiet. The grain market continues flat. attendance on 'Change is small and the bidding spiritless. Yesterday (Saturday) there was a drop of ic on wheat, with scarcely any inquiry. There was no demand whatever for corn, and quotations are continued at Friday's range. New oats-the only kind offered here now-were lower. The receipts included sixty-four cars of wheat and eight of corn. The grading of wheat still continues to be far above the average of recent years. Closing bids on 'Change were as follows: Wheat-No. 2 red, 46c; No. 3 red, 44c; wagon wheat, 47c Corn-No. 1 white, 46c; No. 2 white, 46c; No. 3 white, 46c for one color, 45c for grade; No. 4 white, 4lc; No. 2 white mixed, 45c; No. 3 white mixed, 45c; No. 4 white mixed, 41c; No. 2 yellow, 43c; No. 3 yellow, 43c; No. 2 yellow, 40c; No. 2 mixed, 43c; No. 3 mixed, 43c; No. 4 mixed, 40c;

Broke Down Under the Strain. Chicago Record. "And who is that man?" said the visitor in the insane asylum, pointing to a cell where a pallid inmate sat muttering feebly. "That," said the guide, "is the man who attempted to read all of Mr. F. Marion Crawford's novels as fast as they came Berkeley, No. 60c, Sc; Cabot, 614c; Capital, | out.'

TOO WEAK TO GET UP

WHEAT TOUCHES A LOW RECORD MARK AND HANGS THERE LIMP.

Lower Cables and Declines Other Piaces Knocked the Bottom Out of the Leading Cereal at Chicago.

CHICAGO, July 21 .- Wheat closed without the slightest appearance of rallying, although at the lowest price known since the present system of trading commenced, September finishing with a loss of %c. Corn closed 1/3c higher, oats 3/3c higher and provisions with but little change.

In wheat there was very moderate trade, the price keeping within 1/26% range. There was free liquidation by longs and not much demand outside the buying by shorts. The weakness was largely due to the lower cables, the decline in outside markets and the disappointing exports for the week. The weather abroad was said to be improving. and this was also a minor factor. Liberal receipts at winter wheat points and talk of prospects of some kind of a settlement of the elevator troubles were influences that cut considerable of a figure with the course of the market. The continued favorable reports where thrashing is in progress was something of a factor, showing a much larger yield than expected. Exports of wheat and flower were moderate, being 256,-000 bu. The market grew weaker again near the closing hour, influenced by the break at Minneapolis and the liberal estimated receipts here for Monday-400 cars. Corn was quiet within %@12c range. The market was easy early with wheat, but reacted later on lighter offerings and fair

demand. Oats were easy early with wheat and corn, but firmed up, closing at the top on good buying and unfavorable Iowa crop reports. The range was %c for September. Provisions were very duil, but steady, on the steady live hog market. Compared with last night, September pork and ribs are unchanged and September lard is .021/20 A load of corn was taken to Buffalo today at %c. Estimated receipts for Mon-day are: Wheat, 400 cars; corn, 245 cars; oats, 85 cars; hogs, 27,000, and 125 cars next week. Receipts to-day were: Wheat, 5,200 bu; corn, 140,000 bu; oats, 82,000 bu. Shipments, wheat, 30,000 bu; corn, 84,000 bu; oats, 104,000 bu. Leading futures ranged as follows:
